

2019 and the difference you made

childhope
compassion. education. transformation.

by President Mary Kathleen Mahon, Ph.D.

2019 was a great year for ChildHope as we once again saw God's faithfulness to the children:

- New sponsors and donors joined our ChildHope team
- Water-borne illnesses decreased, and school attendance increased in communities where we were able to give clean water to the families of our students.
- The generous response to the feeding program campaign provided nutritious meals allowing students to be more alert and able to concentrate in classes — especially in places like Venezuela and Haiti where the situation is so bleak.

A former ChildHope student, Juan Pablo (left), reached out to me recently. Here is what he had to say about his ChildHope experience ...

In my childhood I had economic and family difficulties, but ... here (in my ChildHope school) I was instilled in the values that today represent me as a person. In addition, I was able to receive a good education and I have beautiful memories of classmates and teachers.

I sincerely thank those people who helped me to complete my primary education and the most important thing to keep God in my life forever.

Juan Pablo is now a successful businessman, a faithful husband, and a good father who is raising his children in the ways of the Lord. He has broken the poverty cycle because of the help of a sponsor like you and the ministry of ChildHope. Thank you!

The rest of this report gives you a little glimpse of the tremendous impact you made in 2019 — and I pray it will be a wonderful blessing to you! ■

[ChildHope is dedicated to **transforming** the lives of needy children with the **Good News of Jesus Christ** through **education** and **ministries of compassion**.]

compassion education transformation

COMPASSION ... Dayan, Colombia

Dayan's eye was attacked by a tumor and had to be removed. She was given a glass eye — but as she grew, it became ill-fitting and subject to falling out. Thanks to the ChildHope Extreme Poverty Fund, today she's been fitted with a natural looking new eye which fits perfectly!

EDUCATION ... Anthony, Ecuador Sierra

He has a mother — but she can't provide for him. His father is long gone. So Anthony lives in an orphanage.

One bright spot in Anthony's life is his ChildHope school. He's learning and growing in academic and spiritual life. His teachers say he is cooperative and helpful — and they believe he can achieve his dream of becoming a computer engineer!

The compassion of friends like you is keeping Anthony in school and showing him there is hope for the future.

TRANSFORMATION ... Sheily, Guatemala

Sheily was abandoned by her mother, and although it happened when she was still a small baby, the emotional pain lingered. She felt worthless and unwanted — even though her grandmother made a home for her.

When Sheily began attending her ChildHope school, her life was transformed by the love of teachers who prayed for her, friends who encouraged her, and a sponsor who sent gifts, photos, letters, and the Savior, Jesus!

Thanks for helping bring hope and transformation to multitudes like Sheily.
